AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (Currently Amended) Within a document server, a computer-implemented method for processing a request for a document comprising at least one hypertext markup language (HTML) element, the method comprising:

parsing the requested document to generate therefrom a corresponding document object model (DOM) including at least one object;

obtaining a transformation instruction directed to a first object of the DOM, the first object having a value;

transforming the first object by changing the value thereof in accordance with the transformation instruction; and

flattening the DOM to generate therefrom a corresponding transformed document.

- (Original) The method of claim 1, wherein the obtaining step comprises:
 reading a transformation instruction from a script file corresponding to the requested document.
 - 3. (Original) The method of claim 2, further comprising: receiving a request for a document from a client program; and
